

Fanny Chapman Memorial Swimming Pool

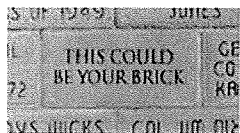

Commemorative Brick Program

The Fanny Chapman Memorial Swimming Pool was opened in 1927 with the simple notion that children should have a place to swim. Since its inception, countless youth and adults alike have benefited from this opportunity. Today, the pool is as busy as ever with generation after generation learning to swim, competing with the swim and dive teams or simply enjoying a summer day. With your help we can perpetuate these traditions.

Commemorative bricks remain on sale for the front entrance patio. Many opportunities still exist to honor the memory of a loved one, celebrate a special moment or simply preserve your family name or company name in brick for years to come. Each purchase will help to preserve the legacy of the pool while ensuring its future.
